

EMPLOYMENT OPPORTUNITY

INTERNSHIP (1 YEAR CONTRACT)

JOB DESCRIPTION – Shaba Testing Services Ltd, a Consulting Engineering Company in Civil Engineering, requires a full-time Civil Engineering Technologist or Civil Engineer in Training (EIT) at its office in Kirkland Lake, Ontario. As a small engineering firm, we offer the candidate a unique opportunity to engage in structural design, roadway design, geotechnical, municipal services design, AutoCAD drawings, surveying, and use of a newly acquired CT scan to locate bars and electrical conduits in concrete structures.

SKILLS: Successful candidates possess the following skills:

- Graduate of Civil Engineering Technology or Civil Engineering from an accredited post-secondary institution
- Ability to work on construction projects with little supervision
- Strong interpersonal skills and ability to work with clients and contractors
- Strong math skills
- Strong AutoCAD and surveying skills
- A valid Class "G" Ontario/Canadian Driver's license
- Civic 3D

INTERNSHIP ELIGIBILITY CRITERIA – Successful candidates must:

- be unemployed or underemployed;
- be under the age of 30;
- have graduated within the last three years with a degree/diploma from an accredited college/university;
- have not been previously employed under a FedNor Youth Internship funding agreement, or other federal or provincial internship with pay for a period of six (6) months or more;
- be legally entitled to work in Canada;
- have reliable transportation;

SALARY: This full-time position is partially funded by FedNor's Northern Ontario Development Program.

Submit application by **October 30, 2018**
